What is Supplemental Instruction (SI)?
SI is an academic assistance program that provides students enrolled in historically difficult courses regularly scheduled, out-of-class, peer-facilitated academic support.

What can I gain from enrolling in an SI course?
On average, students enrolled in historically difficult courses and who consistently attend SI sessions earn **one letter grade higher** than students who do not attend SI. This has been a consistent trend since SI began at UNI in 2012.
